SQA Advanced Diploma in Administration and Information Technology

If you want a career with prospects, getting an SQA Advanced Diploma from the Scottish Qualifications Authority (SQA) is one of the best ways to achieve your ambition. The SQA Advanced Diploma in Administration with Information Technology will provide you with the practical skills and theoretical knowledge an employer will expect you to have in an ever-changing office environment.

The SQA Advanced Diploma in Administration with Information Technology can boost your job prospects in an office environment. The SQA Advanced Diploma covers all aspects of office administration and will help you develop specialist IT skills in word processing, and using spreadsheet and database packages. You will also develop interpersonal skills and an awareness of data management, legal and ethical issues.

Achieving the SQA Advanced Diploma in Administration with Information Technology will provide you with business knowledge and practical skills, including project management, research and planning. Employers will expect you to have this knowledge for a career as, for example, executive secretary or personal assistant. It could also lead to a career in junior management, perhaps as a supervisor or manager.

The Advanced Diploma in Administration with Information Technology consists of a total of 30 Unit credits. Each Unit comprises 40 timetabled

learning and 40 hours self-guided learning and study. They usually take two academic years to complete but this timeframe is flexible.

In addition you must successfully complete the Workplace Communication in English and the Research Skills Units to achieve your SQA Advanced Diploma. All students must meet SQA's specified English language entry requirement to progress into Advanced Diploma year 1.

Currently, at least two thirds of students completing an Advanced Diploma in China go on to a degree in a university in the UK, USA, Ireland, Australia or New Zealand. Students who have completed their Advanced Diploma will be able to apply to university for entry into year 2 or year 3 of an undergraduate Honours degree programme. To date, most SQA Advanced Diploma students from China studying for a Bachelor Honours degree have progressed to a Masters degree.

SQA's prestigious qualifications are recognised worldwide.

If you would like more information about SQA you can visit the SQA China website at cn.sqa.org.uk

If you would like to find out how to enrol on the SQA Advanced Diploma in Administration with Information Technology, please contact CSCSE at www.cscse.edu.cn who will give you information on how to enrol for this course at a Chinese university.

SQA Advanced Diploma in Business with Human Resource Management

If you want a career with prospects, getting an SQA Advanced Diploma from the Scottish Qualifications Authority (SQA) is one of the best ways to achieve your ambition. SQA's Advanced Diploma in Business with Human Resource Management is designed to equip you with an understanding of human resource issues and practices within a changing business environment.

Human resource management professionals can have a variety of roles and duties or specialise in one area, depending on the size of the company they work for.

Important aspects of human resource management that are covered in the course include: recruitment and selection, including preparing job descriptions and interviewing, employee training and development; employee relations, eg handling grievances, disciplinary proceedings and redundancy; employee services, eg health and safety; administering payroll and benefits; and predicting and planning for an organisation's future staffing needs.

Achieving the SQA Advanced Diploma in Business with Human Resource Management will provide you with the theoretical business knowledge and the practical skills an employer will expect you to have for a career in the business sector, while also allowing you to specialise in human resource management.

The SQA Advanced Diploma in Business with Human Resource Management consists of a

total of 30 Unit credits. Each Unit comprises 40 timetabled learning and 40 hours self-guided learning and study. They usually take two academic years to complete but this timeframe is flexible.

In addition you must successfully complete the Workplace Communication in English and the Research Skills Units to achieve your SQA Advanced Diploma. All students must meet SQA's specified English language entry requirement to progress into Advanced Diploma year 1.

Currently, at least two thirds of students completing an Advanced Diploma in China go on to a degree in a university in the UK, USA, Ireland, Australia or New Zealand. SQA Advanced Diploma in Business with Information Technology

If you want a career with prospects, getting an SQA Advanced Diploma in Business with Information Technology from the Scottish Qualifications Authority (SQA) is one of the best ways to achieve your ambition.

Information technology now plays a very important part in the daily life of modern business. This SQA Advanced Diploma in Business with Information Technology integrates the business management and information technology skills that are required for the modern business environment.

The SQA Advanced Diploma enables you to find the right information technology methods to use in business. The course will not focus on any specific software system, language or model, but will assess these in the context of business.

Now that trade and business are ever more global, information technology has an important role to play in ensuring that business does not lose out on any potential markets or clients, wherever they may be. This is important to business in China as a member of the World Trade Organisation.

The SQA Advanced Diploma in Business with Information Technology consists of a total of 30 Unit credits. Each Unit comprises 40 timetabled learning and 40 hours self-guided learning and study. They usually take two academic years to complete but this timeframe is flexible.

In addition you must successfully complete the Workplace Communication in English and the Research Skills Units to achieve your SQA Advanced Diploma. All students must meet SQA's specified English language entry requirement to progress into Advanced Diploma year 1.

Currently, at least two thirds of students completing an Advanced Diploma in China go on to a degree in a university in the UK, USA, Ireland, Australia or New Zealand. SQA Advanced Diploma in Financial Services

If you want a career with prospect, getting an SQA Advanced Diploma from the Scottish Qualifications Authority (SQA) is one of the best ways to achieve your ambition.

No-one can escape making financial decisions. From those early decisions about whether to spend or save your pocket money through to decisions about pensions and easing your life after retirement, financial decisions are a fundamental part of life.

The financial services industry encompasses a wide range of activities to do with personal, industrial and commercial finance.

Achieving the SQA Advanced Diploma in Financial Services can lead to job opportunities in a wide variety of commercial environments. These include commercial banks, investment banks, insurance companies, broking firms, unit and investment trust companies. You could be dealing with the transmission of money, loans, mortgages, pensions, insurance, currency, trade finance, stocks and shares and financial advice. Employment opportunities in finance also arise in organisations such as supermarkets, airlines, large motor car companies etc.

The SQA Advanced Diploma in Financial Services consists of a total of 30 Unit credits. Each Unit comprises 40 timetabled learning and 40 hours self-guided learning and study. They usually

take two academic years to complete but this timeframe is flexible.

In addition you must successfully complete the Workplace Communication in English and the Research Skills Units to achieve your SQA Advanced Diploma. All students must meet SQA's specified English language entry requirement to progress into Advanced Diploma year 1.

Currently, at least two thirds of students completing an Advanced Diploma in China go on to a degree in a university in the UK, USA, Ireland, Australia or New Zealand. Students who have completed their Advanced Diploma will be able to apply to university for entry into year 2 or year 3 of an undergraduate Honours degree programme. To date, most SQA Advanced Diploma students from China studying for a Bachelor Honours degree have progressed to a Masters degree.

SQA's prestigious qualifications are recognised worldwide.

If you would like more information about SQA you can visit the SQA China website at cn.sqa.org.uk

If you would like to find out how to enrol on the SQA Advanced Diploma in Financial Services, please contact CSCSE at www.cscse.edu.cn who will give you information on how to enrol for this course at a Chinese university.

SQA Advanced Diploma in Global Trade and Business

If you want a career with prospects, getting an SQA Advanced Diploma from the Scottish Qualifications Authority (SQA) is one of the best ways to achieve your ambition. The SQA Advanced Diploma in Global Trade and Business will provide you with the practical skills and theoretical knowledge an employer will expect you to have in the highly competitive global market.

Many firms worldwide have global strategies to co-ordinate and market their international business activities.

The SQA Advanced Diploma in Global Trade and Business will provide you with the practical skills and theoretical business knowledge, combined with the essential elements of economics and international marketing, that an employer will expect you to have for a career in a highly competitive international business. You could be working, for example, in marketing or exporting.

The SQA Advanced Diploma in Global Trade and Business consists of a total of 30 Unit credits. Each Unit comprises 40 timetabled learning and 40 hours self-guided learning and study. They usually take two academic years to complete but this timeframe is flexible.

In addition you must successfully complete the Workplace Communication in English and the Research Skills Units to achieve your SQA Advanced Diploma. All students must meet SQA's specified English language entry requirement to progress into Advanced Diploma year 1.

Currently, at least two thirds of students completing an Advanced Diploma in China go on to a degree in a university in the UK, USA, Ireland, Australia or New Zealand. Students who have completed their Advanced Diploma will be able to apply to university for entry into year 2 or year 3 of an undergraduate Honours degree programme. To date, most SQA Advanced Diploma students from China studying for a Bachelor Honours degree have progressed to a Masters degree.

SQA's prestigious qualifications are recognised worldwide.

If you would like more information about SQA you can visit the SQA China website at cn.sqa.org.uk

If you would like to find out how to enrol on the SQA Advanced Diploma in Global Trade and Business, please contact CSCSE at www.cscse.edu.cn who will give you information on how to enrol for this course at a Chinese university.
